1. Precautions

Technical service information contained here is supplied for use by qualified service personnel.
Specifications are subject to change without notice.

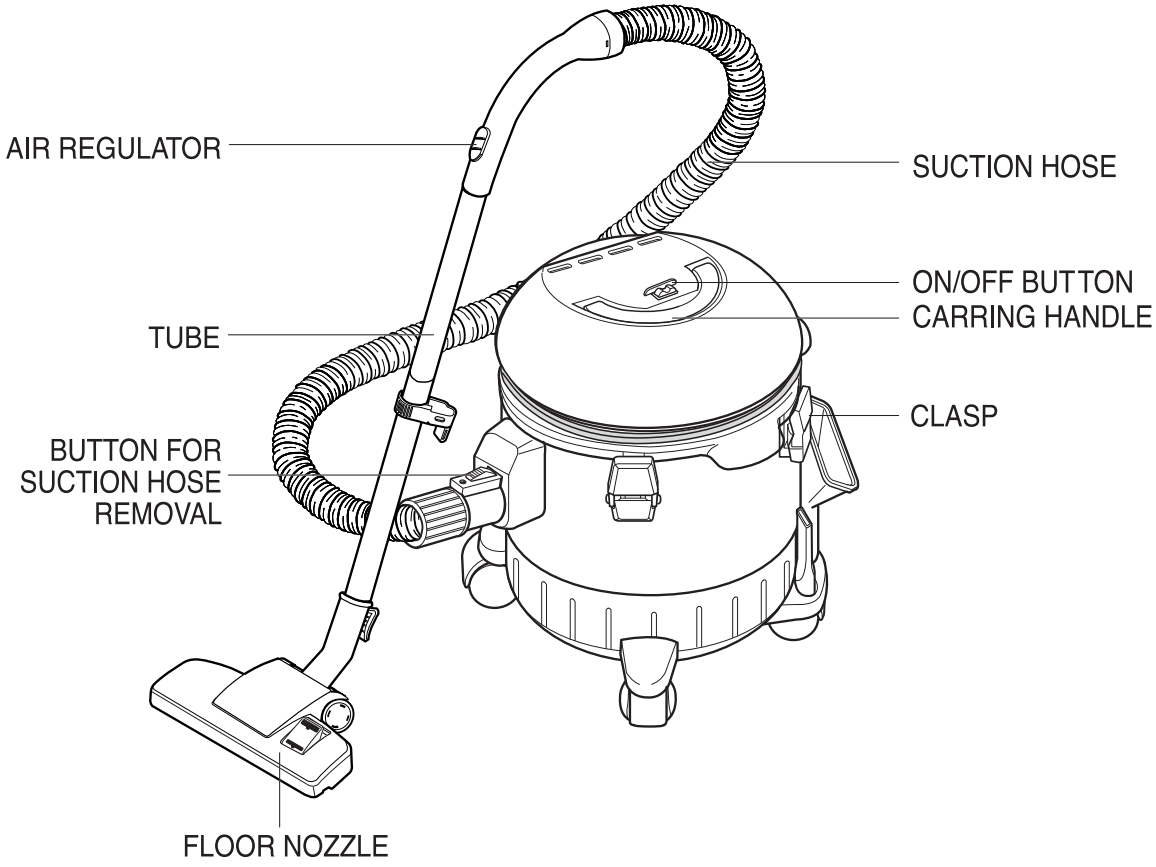
Before wet use, never vacuum foamy liguid.

1. Never vacuum foamy liquid.
2. Never immerse the motor unit in water.
3. Do not use the vacuum cleaner without motor protection filter.
4. Never use the vacuum cleaner to pick up matches, live ashes or cigarette butts.
   Keep the vacuum cleaner away from stoves or heat source. Heat can deform and discolour the plastic parts of the unit.
5. Avoid picking up hard or sharp objects with the vacuum cleaner.
   Do not stand on the hose assembly, put a weight on the hose or block the suction or exhaustion part.
6. Unplug the cleaner when not in use. Turn off the power switch before unplugging.
7. Grasp the plug firmly when removing it. To avoid damage to cord, plug, prongs or socket, always disconnect the cord from the electrical outlet before cleaning the filter.
8. The use of an extension cord is not recommended.
9. Repairs should be done only by an qualifled serivce personnel.

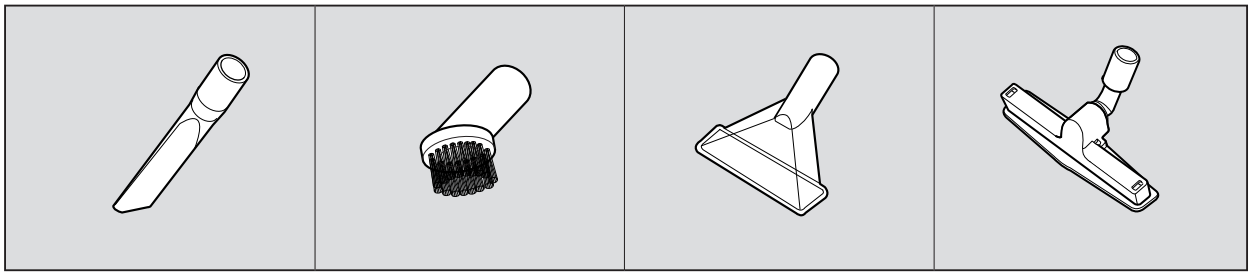
2. Specifications

Power Source	Look at the data plate on the bottom of cleaner
Power Consumption	
Dimension	VC-W113
Weight	Gross : 11.7 kg Net : 7.9 kg (8.5) excluding all accessories
Accessories	Floor nozzle, Crevice tool, Water brush, Dusting brush, Upholstery brush, Pipe, Hose.

3. Operating Instructions



ACCESSORIES

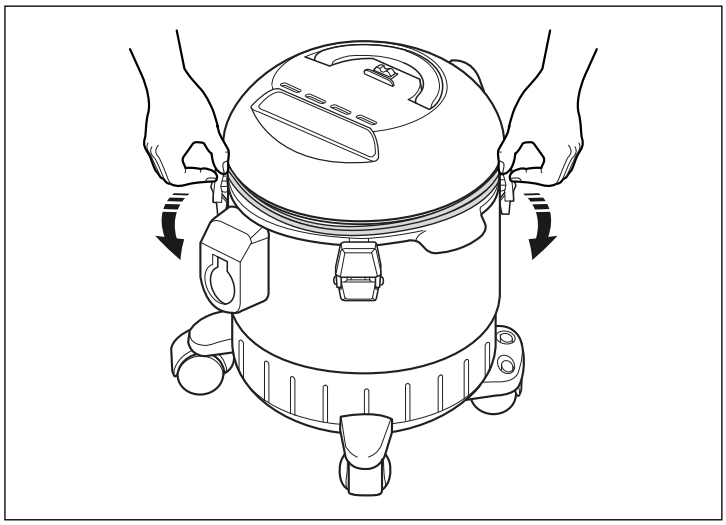


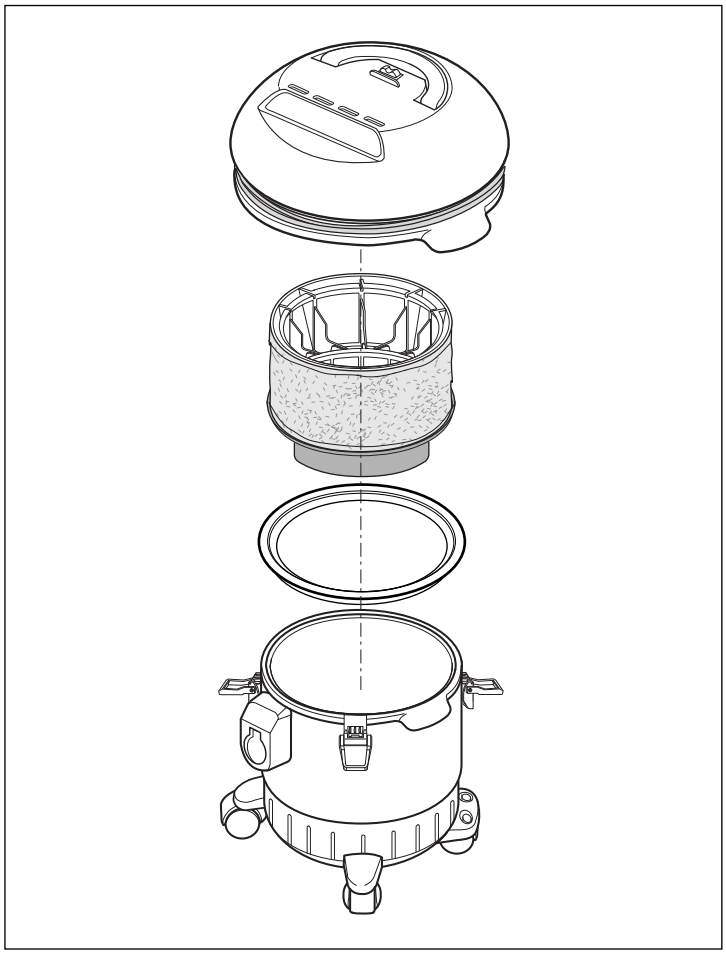
CREVICE TOOL	DUSTING BRUSH	UPHOLSTERY BRUSH	WATER BRUSH

4. Disassembly and Reassembly

4-1 Removal COVER-DUST ASSÕY

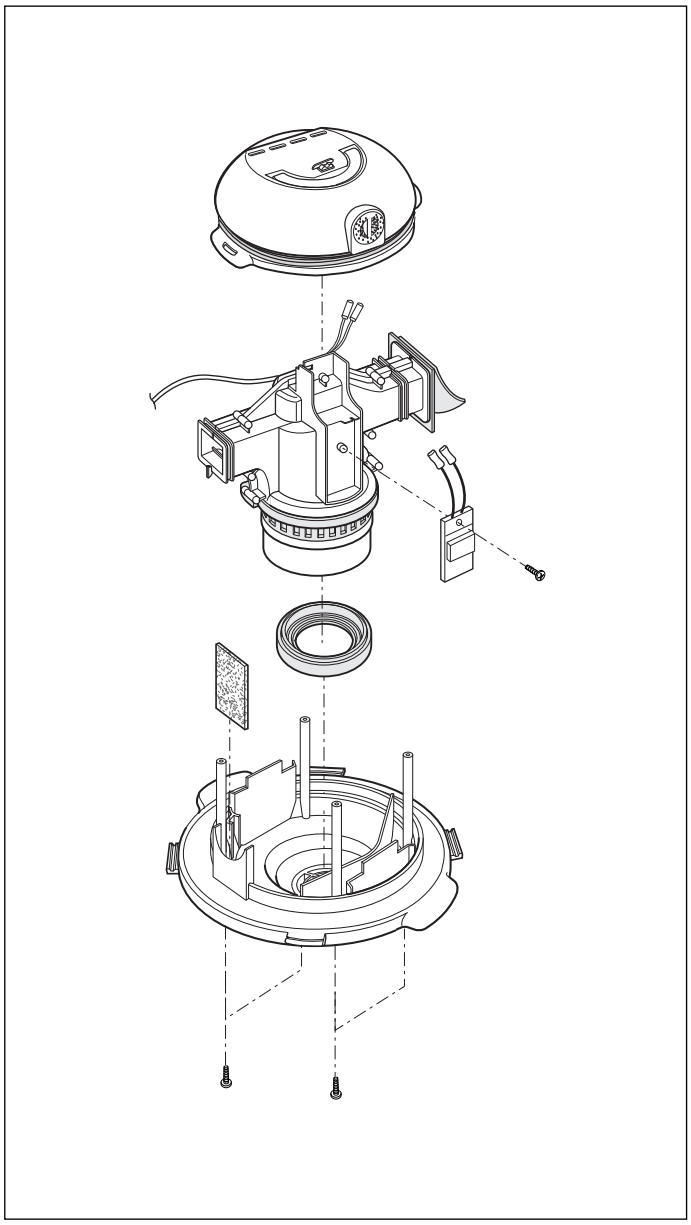
1) Unfasten 4 clasps and lift cover-dust ass'y





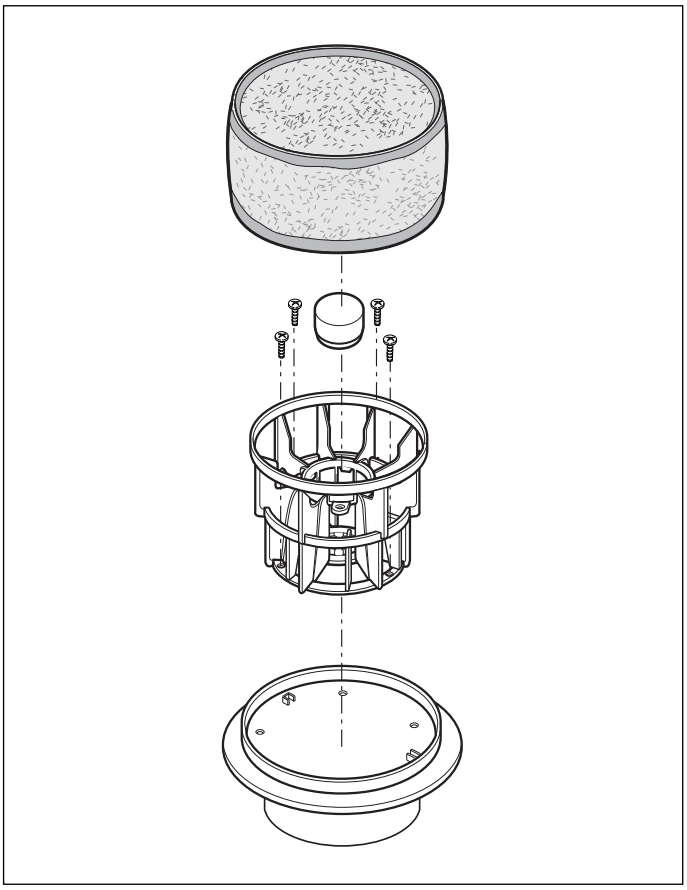
4-2 Disassembly of Body-Top ASSÕY

1) Loosen the four screws and detach cover-dust low, motor ass'y.



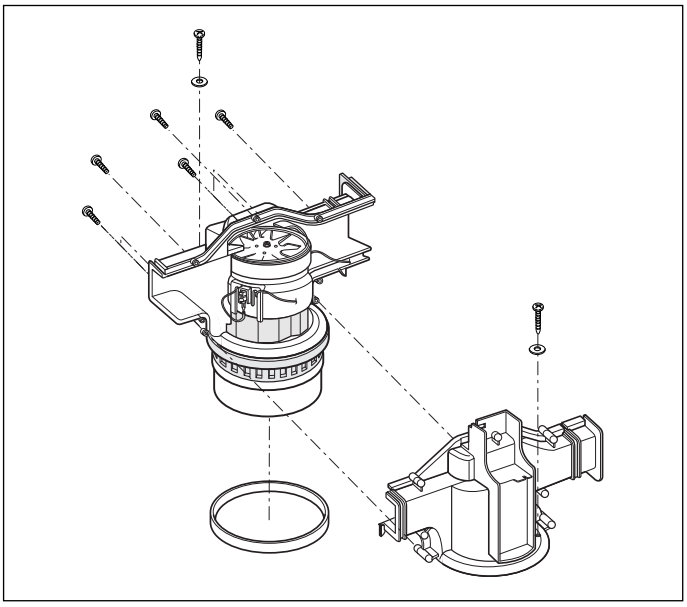
4-3 FILTER replacement

1) Loosen the four screws and lift the FILTER upward.



4-4 MOTOR replacement

1) Loosen the nine screws and separate case-motor.

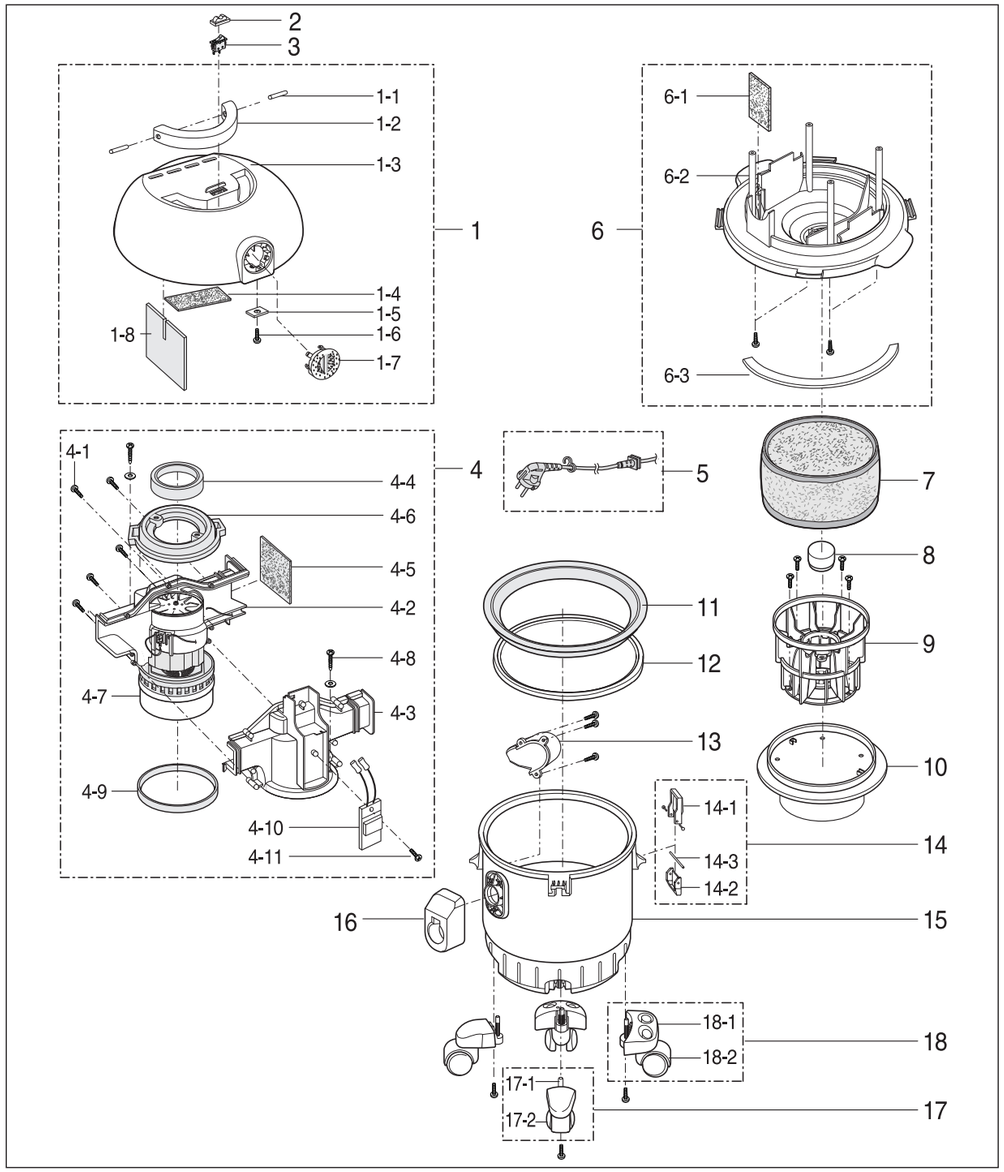


5. Troubleshooting

Problem	Check	Remedy
• Motor does not run when turned on	• Check that the plug is securely inserted into outlet • Check that the carbon-brush is not severely worn • Check that the hook in the carbon-brush in separated • Check that the power switch is truned on • Check that the contact at the cord-reel area is ok	• Plug in firmly • Push it completely into the brush holder or replace it • Replace if motor does not run when turned on • Replace it if broken
• Suction power is week	• Check that the floor nozzle or the hose is clogged with a large object • Check that the cover is attached firmly to the body • Check that the hose is firmly inserted	• Remove the object • Attach the cover properly • Insert the hose firmly
• Motor does not start	• No power supply.	• Check cable, plug and socket.
• Suction force is gradually decreasing	• Dust Filter, nozzle, suction hose or tube is blocked.	• Remove the object.
• Suction is not performed yet all, although the motor is running.	• The container is full of water. • The container is full of dust.	• Dispose water. • Empty the container and handwash the filter separately.

6. Exploded Views and Parts List

6-1 Assembly- Body



NOTE: Select the appropriate part number, depending on model.
Example: Dust-cover and cord-reel assy.
